

# Did you know that South High has an Internship Program?

## Why an internship?

Internships are an amazing way to broaden your horizons and explore future career options. They enable students to develop valuable skills needed for the workplace while making them more marketable to prospective employers and colleges.

## School-year internships

School-year internships are eligible for elective credit, which is a great way to highlight the experience on academic transcripts. The Career Internship Office has placed students in many areas including local government, medical offices, non-profit organizations, marketing firms, real estate offices, and more. Students are also welcome to set up placements through their own contacts provided the internship meets certain criteria. A detailed list of current internship partners can be found [online here](#).

## A note about the summer

The GNSHS Internship Office does not offer a summer program and we are unable to give credit for summer internship and volunteer hours. However, it is still a great time to do an internship or take on a volunteer project, and students are welcome to talk to Ms. Kinsey to get ideas of where to start their search.

## You can help the program grow!

We are always looking to partner with new local businesses. Working with a student intern is a win-win situation. Your business benefits from the help of a volunteer for a few hours a week in exchange for providing a wonderful learning opportunity to Great Neck public school students. If you or someone you know might be interested, please contact Ms. Kinsey: [nkinsey@greatneck.k12.ny.us](mailto:nkinsey@greatneck.k12.ny.us).
